Wholesale Module

Last Modified on 08/15/2019 1:09 pm EDT

The Wholesale Module is an optional add-on for your SimplePart site which provides real-time discounted pricing for certain customers when they browse your parts website. This is only visible to your customers who have an approved Wholesale Login.

In order for customers to get a Wholesale Login, they must first request one on your website. Once you have the Wholesale Module enabled, this screen can be found in the footer of your site under the name "Wholesale Login".

Here, customers can either log in (if they already have been approved) or request an account.

Custom Item Pricing

One especially neat feature of the new Wholesale Module is the ability to create custom pricing for items in specific accounts. This can be helpful if—for instance—you have an IRF (Independent Repair Facility) who frequently orders the same products from you and you'd like to offer them a special deal.

In this example, we're offering a special deal on a specific oil filter

| | OIL FILTER |
|----------------------------------|--|
| | Part Number: 11421276850 (11421278059; 11421417406; 11429055001) 30 BAR |
| Diagrams and Kits What This Fits | |

By clicking the Custom Product Information text in the header, you can enter the part number in the "Edit Product" field. Then, you'll be able to enter custom pricing for this specific product.

Tip: We recommend editing the costMarkup value rather than the actual cost
